"About Kennedy's Country Gardens, Inc."

Kennedy's Country Gardens is a full service garden center serving the South Shore and beyond since 1960. Kennedy's is located at the mouth of the North River in Scituate, MA; conveniently located halfway between Cape Cod and Boston. Kennedy's is a multifaceted green industry business on over 5 acres. Their business diversity consists of seven departments including the Garden Center, Nursery, Greenhouses, Aquatic Center, Florist, Gift Shop, and a Landscape Design Center.

This award winning member business has been filmed for a garden makeover episode on DIY network which is scheduled to be aired in the summer of 2009. They have been voted "Best Garden Store" several years running in both the Community/Mariner Newspaper and South Shore Living Magazine. In November 2007, they were featured as a destination for the Garden Centers of America Holiday Tour. Garden center owners from around the country visited Kennedy's to see their store prepared for Christmas sales.

Kennedy's Country Gardens is a great supporter of the Massachusetts Nursery and Landscape Association. Robert (Bob) Kennedy is a Past President of MNLA (1983-1984) and Chris Kennedy currently serves as Treasurer. Chris was awarded the 2006 Young Nursery Professional of the Year Award by MNLA and the New England Nursery Association; and was a national nominee for the 2006 Young Nursery Retailer of the Year in Green Profit Magazine. Chris was also awarded the MNLA President's Award in 2002 by MNLA President, Bonnie Tucker L'Etoile. Kennedy's heartily supports the Massachusetts Certified Horticulturist's Program (MCH) and currently have 4 MCH's on their staff.

We invite you to join fellow members on September 16th to exchange ideas, challenges and opportunities and to learn more about the success of Kennedy's Country Gardens.

Join the MNLA Board for round table discussion on upcoming programs designed just for MNLA Members! MCH credits? Take this opportunity to earn re-certification credits for 2010!
